About Plone Conference

Plone Conference is a Worldwide Developers Conference for Plone organized community of "Plone" the Web Content Management(CMS) Software. Since 2001 of the first release, Plone has been widely used open source software by companies, government institutions,

research and education institutions, therefore, Plone is evolving under active development. The first Plone Conference was held in New Orleans, LA USA in 2003, and since then, it had been held somewhere on earth in autumn every year. For this year 2018 the, the 16th Plone Conference proposal of Japanese community has has been adopted by Plone Foundation and Tokyo becomes the first city in Japan but also in Asia to host Plone Conference. More than 250 software engineers of Python, JavaScript, Web, Cloud technologies will get together and share knowledge and experiences.
